

Ozo-Plus Ozone Generator

STRONGEST DISINFECTANT AND OXIDISING AGENT
For pool & spa, water feature, and biological filtration

System Features

1. Simple to install and operate
2. Compact design suitable for minimal plant room space requirement

Ozone Technology

1. It is up to 3,000 times more powerful as a germicide than chlorine.
2. Kill off all bacteria, virus and fungus in 0.05ppm without toxic residues
3. Enhancing the effectiveness of sand filter filtration to a crystal-like water, by direct oxidization and decomposition of organic waste.
4. Ozone kills bacterial within 1-10 seconds by oxidative burst occurs over the cell wall during contact and cells die without cell wall maintain.

How it works

The system consists of a corona discharge ozone generator and automatically air dryer unit which can be used in combination to give ozone outputs from 4 – 8 g/h.

Ozone is produced when the air is passed over a ceramic dielectric ozone generating module containing a stainless steel electrode. The module is powered by a high voltage/high frequency power board. Ozone is injected through a water driven venturi which ensures maximum safety against ozone gas leakage.

The air dryer unit contains twin desiccant dryer columns which are automatically heat regenerated controlled by a programmable relay system. When the air dryer system is used the normal output of the generators is doubled.

Advantages of using Ozone in pool

1. Reduce chlorine or bromine use up to 90%
2. Effective against chlorine resistant pathogens, such as cryptosporidium & giardia
3. Reduced skin and eye irritation
4. Very low trihalomethanes levels
5. By flocculation effect, water clarity is significantly improved.

OZONE FORMATION

Product Dimensions and Materials

1. Ozone Generator: mild steel epoxy coated cabinet
2. Cell: Ceramic Tube and 316SS Electrode
3. Air Dryer: mild steel epoxy coated cabinet
4. Dual desiccant array is designed to create negative pressure which is regenerated during heat exchange automatically.

Ozone Plus Model	L x W x H	
	mm	inch
Ozone Generator	230 x 180 x 540	9 x 7.1 x 21.3
Air Dryer	390 x 180 x 540	15.4 x 7.1 x 21.3

Accessories

1. Degassing system
2. Booster pump

Product Information

Code	System Model	Ozone Generator Unit	Air Dryer Unit	Ozone Output (g/h)	Air Flow (l/m)	Ozone Concentration (mg/l)	Maximum Pool Volume (m3)
931135798	OZG-4G	1	1	4	10-15	3.5-4.5	200
931135799	OZG-8G	2	1	8	25-30	3.5-4.5	400
